Reid - this is looking good! I've made some edits and added some comments, and I'd like to discuss some numbers with you, but overall I think we're very close (at least in my opinion, we have to get this past Wendy as well). I'll call you tomorrow. Nice job!

Hi Sue,

Attached is the revised version of the draft Subpart W preamble and rule language, along with the Supporting Statement for the ICR. The revised language is a different color from the regular text, and for your convenience it is found on the following pages:

48-49  
56-66  
69-73  
75-80  
88-94  
96-100  
117

I also highlighted a placeholder for you on page 44 on What Revisions are we Making to Subpart W?

I believe we have captured your comments, moved information into sections that make sense, added more explanation to address some of your comment, and added language concerning the ICR. We are hoping to go to FAR around the third week of April. Please let us know what you think. Thanks
